Site: 001

NEW YORK STATE PSYCHIATRIC INSTITUTE

1051 RIVERSIDE DRIVE

Type: ROUTINE INSPECTION

NEW YORK, NY 10032

Date: 20 February 2013

2.31 (c)(7) DIRECT NCI

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Item IACUC 2.31 c 7

The IACUC shall review and approve, require modifications in (to secure approval), or withhold approval of proposed significant changes regarding the care and use of animals in ongoing activities.

On Oct 23, 2012 NHP 2909 was transported to the MRI area while under anesthesia and not monitored according to the protocol.

The monitoring of animal is critical for the safety and well being of the animal and to maintain compliance.

The IACUC needs to insure its personnel are familiar with the requirements of the protocol in order to insure compliance with the protocol and prevent animal injury or deaths.

Correct from this day 2/20/13

2.38 (f)(1) DIRECT NCI

MISCELLANEOUS.

Item Handling 2.38 f 1

Handling of all animals shall be done as expeditiously and carefully as possible in a manner that does not cause trauma, overheating, excessive cooling, behavioral stress, physical harm, or unnecessary discomfort

On Oct 23, 2012 NHP 2909 was being prepared for its MRI, a distance of about 10 minutes from the animal facility, the animal had been given an injectable pre-anesthetic and then placed on gas anesthesia before being disconnected and transported to the MRI facility. At the MRI area both the animal and technicians had to wait for 45 minutes, during this time the animal stopped breathing twice and had to be ventilated and was returned to the facility.

Delays in procedures can place the animal well being in jeopardy.

Facility needs to insure all phases of the protocol ready and established in order to minimize harm, and prevent injury or death to the animal.

Correct from this day

2/20/13

Note this was a self reporting incident by the Institution to the USDA. At the time of this inspection the IACUC has instituted a series of measures to monitor and insure compliance.
